Westwood, MA 02090

Re: Notice of Intent
Lot 2B Mill St, Westwood, MA (Map: 28, Parcel: 013)

Dear Westwood Conservation Commission (WCC):

Goddard Consulting, LLC (Goddard), is pleased to submit this Notice of Intent (NOI) on behalf of the applicant, Salvatore Vinci, for the construction of a single-family home, paving of a driveway, and construction of associated structures on the property known as Lot 2B Mill St. in Westwood. This is a joint filing under the Massachusetts Wetlands Protection Act (WPA), Regulations 310 CMR 10.00 et. al. and the Town of Westwood Wetlands Protection Bylaw.

A copy of the NOI application and full-sized plans has been submitted to digitally and to the Westwood Conservation Commission. The titles of all the documents enclosed are as follows:

A list of new/revised documents is as follows:

- NOI (WPA Form 3) Application Form
- NOI Wetland fee Transmittal Form, Copies of Submittal Checks
- Westwood Property Owner Application Authorization
- Westwood Filing Fee Worksheet
- Affidavit of Service, Abutters List, Notification to Abutters
- Final Order of Resource Area Delineation (DEP File #338-0594), 12/19/16
- Final Order of Resource Area Delineation Extension (DEP File #338-0594) 12/24/19
- *USGS Site Locus*. Goddard Consulting, LLC
- *Ortho View of Site*. Goddard Consulting, LLC
- *Quitclaim Deed*, Bk:14299, Pg: 480, signed 7/17/00
- *Plan of Land in Westwood Mass*, Pilling Engineering Company, Inc., 2/4/69, revised 2/5/69
- *Proposed Site Plan of Land Lot 2B- Mill St. Westwood, MA*. GLM Engineering Consultants, Inc. 11/2/2018

Existing Conditions

Lot 2B Mill St. (Map 28, Parcel 13) is a \pm 4.0-acre property which is currently forested and undeveloped. Per the attached deed and associated plan of land, the parcel has been in existence since at least 1969.

Resource areas on site consists of Bordering Vegetated Wetlands (BVW), Bank of Pond, Riverfront Area, and Bordering Land Subject to flooding. On-site resource areas were confirmed by MassDEP in a Final Order of Resource Area Delineation (FORAD) on 12/19/16. This FORAD was extended on 12/24/19. Of the two on-site BVWs one is centrally located with an upland area adjacent, and one is found in the western portion of the property. The on-site perennial stream is known as Mill Brook and enters the central region of the property from the north before entering Bakers Pond which occupies much of the southern portion of the property. Mill Brook then leaves Bakers Pond flowing off property in the south west corner. Due to the presence of the pond, Riverfront area on site is only assessed to the stream at its inlet and outlet from the pond and is not assessed to the banks of Bakers Pond.

The adjacent lot to the north, known as lot 2A is host to a shared common driveway which exists within a Right of Way easement on that property. While located off site this common drive the subject parcel as referenced in the attached deed.

Proposed Conditions

The applicant is proposing the development of the site with a detached single-family residence and appurtenant amenities. The house is to be sited on the only suitable and easily accessible piece of upland on the site. As stated previously, a shared common driveway located on the adjacent parcel will serve as the primary access path to the proposed residence with an individual driveway constructed off of that right-of-way to service the proposed residence.

The location of a pre-existing wetland crossing will be used for construction of the individual driveway to service the proposed residence. This crossing is currently associated with a small wetland finger which is part of the “GC-series” wetland. A 12” Reinforced Concrete Pipe (RCP) currently underlies this crossing, hydrologically connecting the upper and lower portions of the “D-series” wetland. Proposed crossing design will maintain the existing 12” RCP and will not significantly widen the existing crossing.

Proposed permanent Riverfront Area impacts total \pm 4,538 sf, and permanent Buffer Zone Impacts total \pm 22,895 sf. Additionally, construction of the individual driveway and crossing will result in the alteration of \pm 370 sf of the 0-10 ft Buffer Zone. This portion of buffer zone has already experienced alteration through prior installation of the 12” RCP.

As stated, the house itself will be sited on the only suitable and readily accessible piece of upland on the subject parcel. The house lot will fall entirely within the 100 ft Buffer Zone of on-site BVW and will result in the alteration of \pm 22,895 sf of Buffer Zone (see Photo 1). No alteration of the 0-10 ft Buffer Zone is proposed in association with house lot construction. The southern portion of the house and Limit of Work (LOW) will enter the Outer Riparian Zone, resulting in the permanent alteration of \pm 4,538 sf of RFA. Impervious surface area associated with the house

and new driveway will total \pm 5,850 sf, with \pm 1,040 sf of the house falling within RFA. The repaving of the shared driveway will result in the redevelopment of 7,223sf of impervious surface.

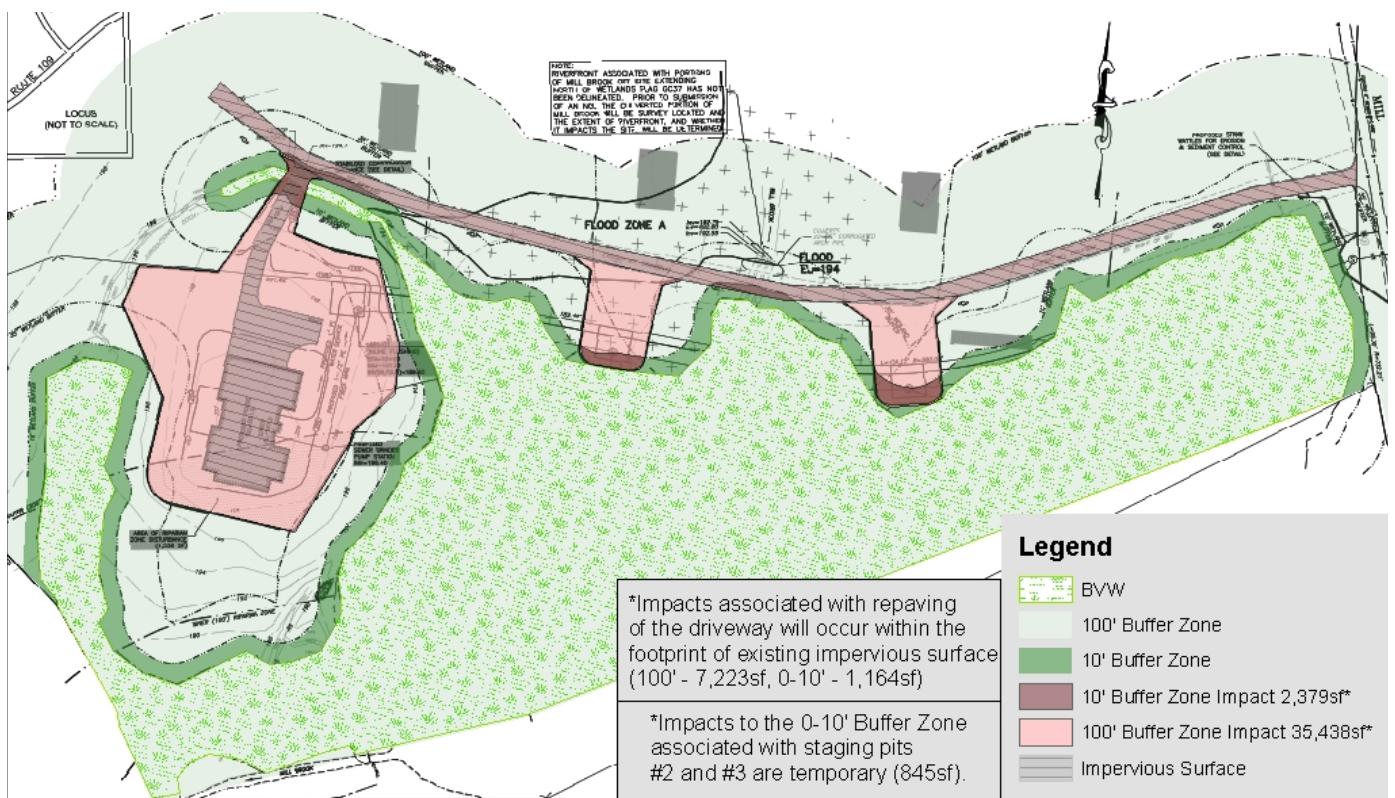

Photo 1. The proposed alterations within the 10' and 100' Buffer Zones of BVW.

Temporary and permanent impacts to RFA will total $\pm 14,020$ sf, with $\pm 4,970$ sf occurring within the Inner Riparian Zone (see Photo 2). Impacts associated with the staging pits will be temporary, with the area restored to existing grade and revegetated following directional drilling activities. A portion of the site exists within FEMA flood zone A. No filing of floodplain is proposed necessitating no compensatory storage.

A summary of resource area and buffer zone impacts is provided in Table 1 below.

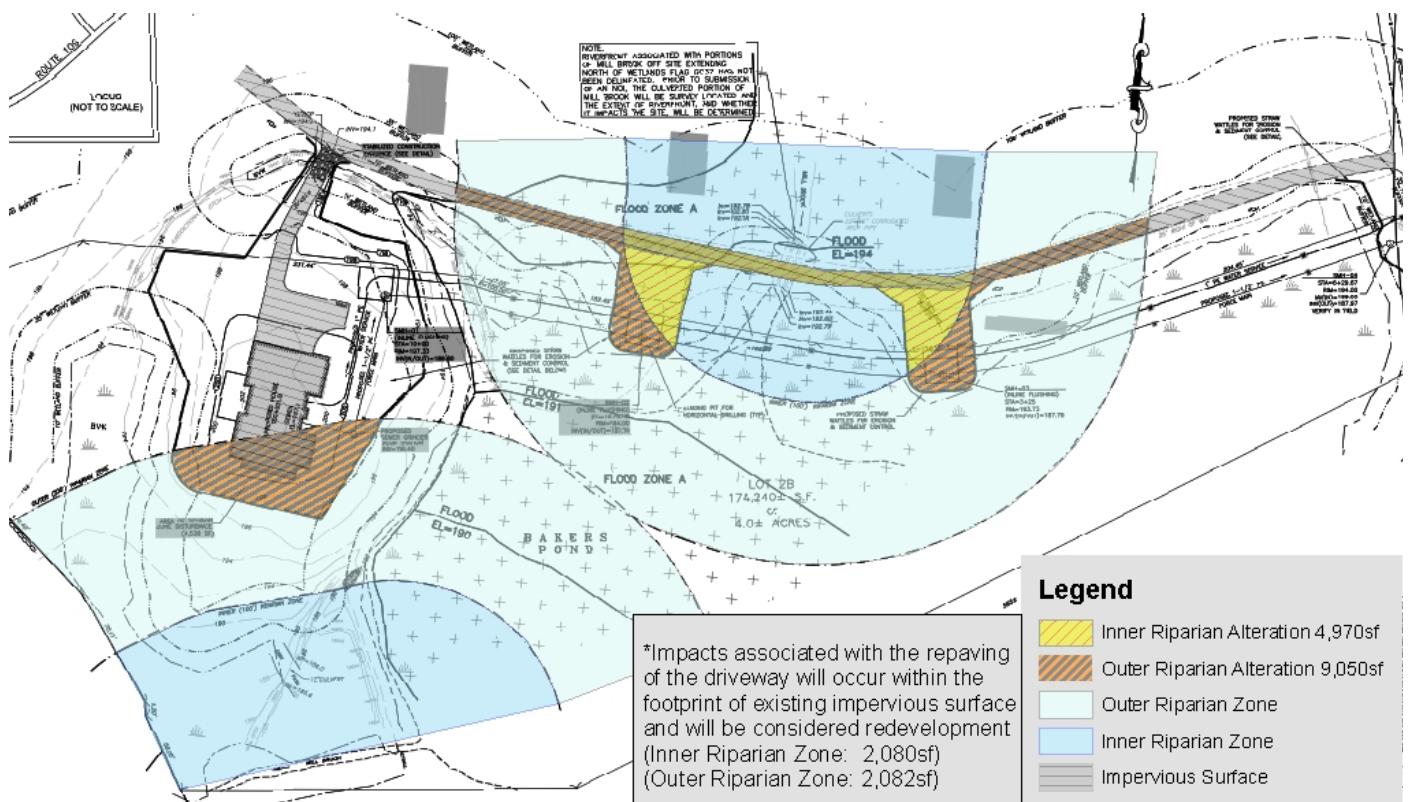

Photo 2. Impacts to the Inner and Outer Riparian Zones as a result of the proposed construction.

Due to the existing deed agreement governing the use of the shared access driveway, underground utilities are not able to be installed within the easement. As a result, the applicant has proposed directional drilling in order to supply water and sewer utilities to the proposed residence. Directional drilling is a trenchless method of installing underground utilities in a way that has no adverse impact to resource areas on the surface. A pilot hole is drilled along a directional path from one surface point to another. Next, the bore created during pilot hole drilling is enlarged to a diameter that will allow the underground utilities to be installed. Lastly, the pipe or wire associated with the utility is pulled through the ground creating a continuous segment underground that is only exposed at the two surface points.

In order facilitate this activity, two staging pits will need to be dug to act as surface points within on-site entirely within on-site buffer zone and RFA. Buffer zone disturbance will total $\pm 5,320$ sf, of which ± 854 sf will temporarily occur within the 0-10ft buffer (see Photo 1).

Table 1: A summary of proposed Resource Area alteration in square feet.

Activity	Total RFA	Inner Riparian Zone	Outer Riparian Zone	100' Buffer Zone	0-10ft Buffer Zone
Staging Pit #2 *temporary impacts	$\pm 2,650$	$\pm 1,510$	$\pm 1,140$	$\pm 2,650$	± 325
Staging Pit #3 *temporary impacts	$\pm 2,670$	$\pm 1,380$	$\pm 1,290$	$\pm 2,670$	± 520
House and House Site (including Staging Pit #1 and Driveway Crossing)	$\pm 4,538$	--	$\pm 4,538$	$\pm 22,895$	± 370
Repaving Driveway *occurring within existing impervious surface	$\pm 4,162$	$\pm 2,080$	$\pm 2,082$	$\pm 7,223$	$\pm 1,164$
Total Impacts	$\pm 14,020$	$\pm 4,970$	$\pm 9,050$	$\pm 35,438$	$\pm 2,379$
Total Permanent New Development Impacts	$\pm 4,538$	--	$\pm 4,538$	$\pm 22,895$	± 370

Total Permanent Resource Area Disturbance: $\pm 27,433$ sf

Regulatory Compliance Under the Wetlands Protection Act

The work proposed under this application impact the Buffer Zone to BVW, therefore under the WPA the project is subject to 310 CMR 10.02(3) which states:

“3. Activities within the buffer zone which do not meet the requirements of 310 CMR 10.02(2)(b)1. and 2. are subject to preconstruction review through the filing of a Determination of Applicability to clarify jurisdiction or a Notice of Intent under the provisions of 310 CMR 10.05(4) and 10.53(1).”

This submittal is a Notice of Intent application. The WPA Regulations [310 CMR 10.02(2)(b)] do not contain performance standards for Buffer Zone Alteration.

Statutory Interest Compliance

To show that the work proposed will not harm the interests protected by the Bylaw, MA WPA and DEP wetland regulations the following statutory interests and BVW/Buffer Zone compliance evaluation was performed.

Protection of Public and Private Water Supply and Ground Water Supply

The single-family house is proposed to be connected to town water and sewer facilities and as a result will not draw from ground water via a private well or have a leaching field to impact ground water resource areas.

Flood Control and Storm Damage Prevention

No BVW alterations are proposed, therefore the proposed work is not anticipated to impact the ability of onsite wetlands to provide flood control or mitigated storm damage.

Prevention of Pollution

Erosion control measures will prevent pollution via erosion into adjacent resource areas during construction.

Protection to Fisheries, Shellfish, Wildlife Habitat and Rare Species

Constructions and erosion control measures will be implemented to secure downstream protection to fisheries, shellfish and surrounding wildlife habitat. No rare species and/or mapped vernal pools are within the vicinity of the site.

Protection of Recreation

No recreational resources will be impacted by the proposed project

10.58 Riverfront Area

10.58(4)(c) Practicable and Substantially Equivalent Economic Alternatives. There must be no practicable and substantially equivalent economic alternative to the proposed project with less adverse effects on the interests identified in M.G.L. c. 131 § 40.

Due to the existing distribution on-site resource areas no reasonable alternatives exist for the development of the site. The proposed house site has been located on the only reasonably accessible portion of upland on the site. Proposed access will use an existing shared common driveway to gain access through the majority of on-site RFA, and the proposed individual driveway will be placed outside of RFA. Avoiding use of the common driveway and constructing a driveway elsewhere on site would necessitate filling wetlands and further impacts to Riverfront Area.

Similarly, alternative methods besides directional drilling like trenching would prove to be much more detrimental to the resource areas on-site. Proposed directional drilling for utility the surface impacts associated with directional drilling to Buffer Zone and Riverfront Area as proposed limit resource are impacts to two temporary staging pits. An alternative to directional drilling would involve disturbing the entire length of the utility rather than just two temporary staging pits. Installation by means of directional drilling has been proposed as the only reasonable means of providing subsurface utilities to the site due to existing restrictions on the placement of such utilities within the existing right of way. A copy of the deed of record which establishes these restrictions has been included with this application for your review.

The construction of an alternate driveway would result in $\pm 6,867\text{sf}$ of impact to buffer zone, $\pm 229\text{sf}$ of which falls within the 10' buffer zone (see Photo 3.). The project currently proposes no impact to BVW. However, this alternate construction of a separate driveway would necessitate $\pm 6,135\text{sf}$ of BVW impact.

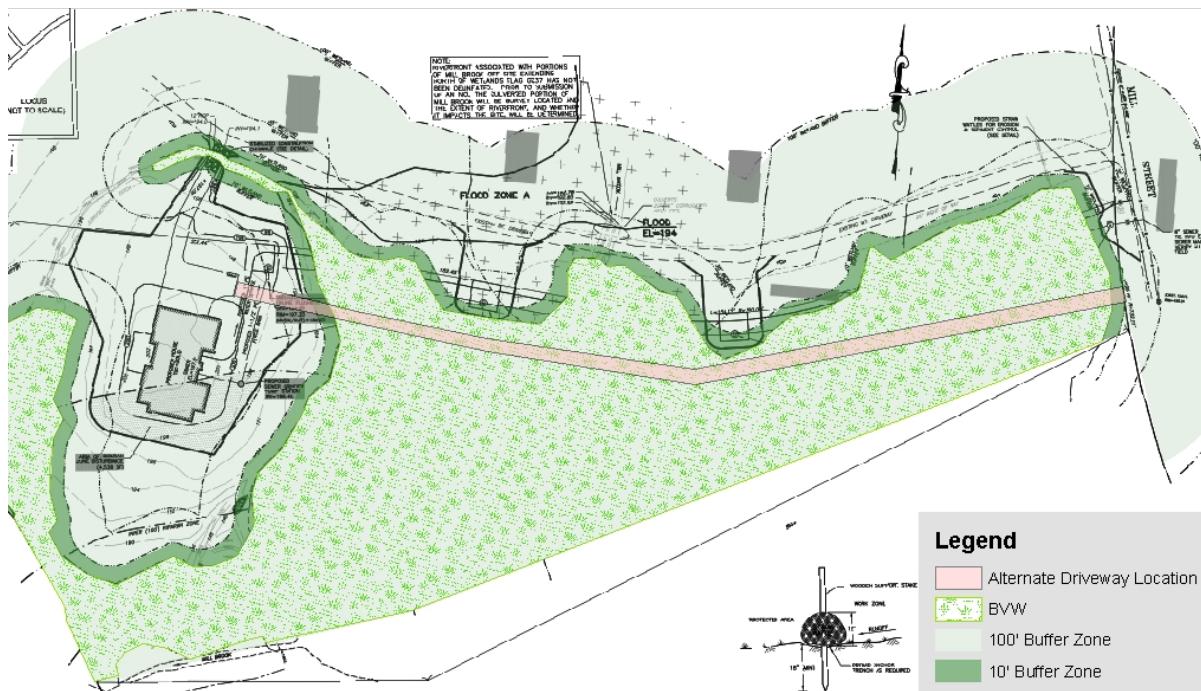

Photo 3. Impacts to Buffer one of BVW associated with the alternative construction of a new driveway.

Although this alternative would remove impacts to inner riparian zone, 4,010sf of new development impact would still be caused to the outer riparian, for a total new development of $\pm 8,548\text{sf}$ of Riverfront Area, occupying more of the allowable 10% of allowable alteration (see Photo 4). Although as proposed there are impacts to the inner riparian zone, these impacts are occurring within the footprint of the existing driveway, degraded surface.

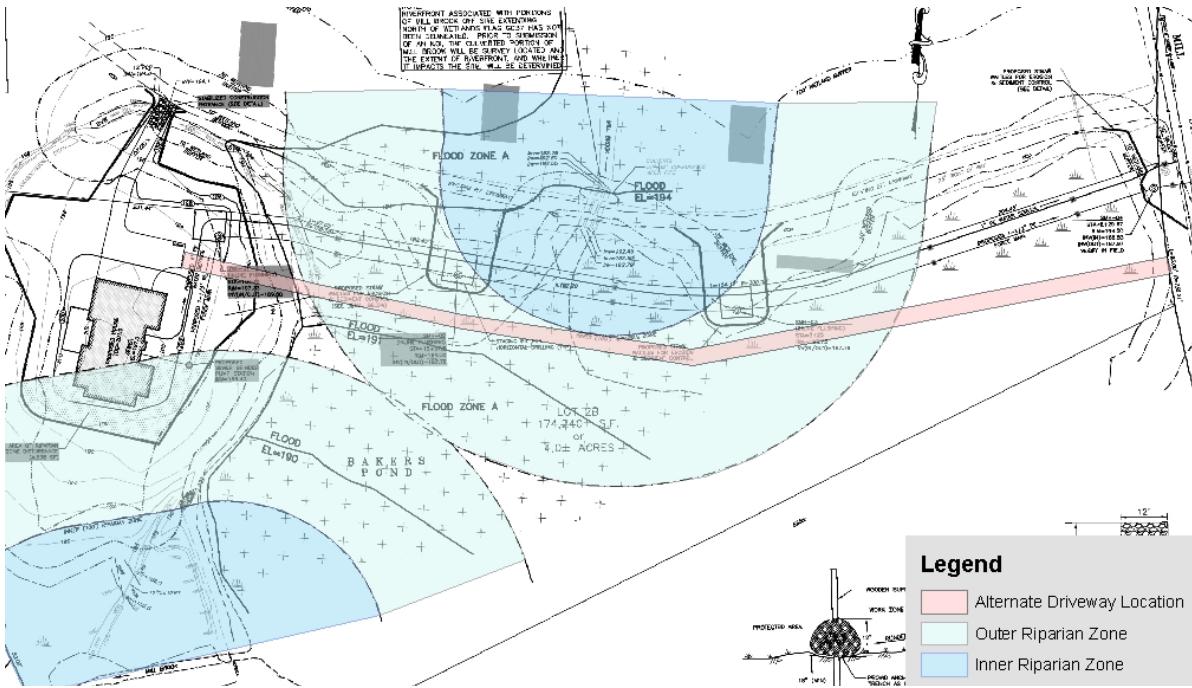

Photo 4. Impacts to Riverfront Area associated with the alternative construction of a new driveway.

10.58(4)(c)2. Scope of Alternatives: The scope of alternatives under consideration shall be commensurate with the type and size of the project. The issuing authority shall presume that alternatives beyond the scope described below are not practicable and therefore need not be considered. The issuing authority or another party may overcome the presumption by demonstrating the practicability of a wider range of alternatives, based on cost, and whether the cost is reasonable or prohibitive to the owner; existing technology; proposed use; and logistics in light of the overall project purpose.

a. The area under consideration for practicable alternatives is limited to the lot for activities associated with the construction or expansion of a single-family house on a lot recorded on or before August 1, 1996.

The subject parcel was created prior to August 1, 1996. Therefore, the scope of alternatives for the proposed project is limited to the subject parcel.

10.58(4)(d) No Significant Adverse Impact: The work, including proposed mitigation measures, must have no significant adverse impact on the riverfront area to protect the interests identified in M.G.L. c. 131, § 40.

1. Within 200 foot riverfront areas, the issuing authority may allow the alteration of up to 5000 square feet or 10% of the riverfront area within the lot, whichever is greater, on a lot recorded on or before October 6, 1997 or lots recorded after

October 6, 1997 subject to the restrictions of 310 CMR 10.58(4)(c)2.b.vi., or up to 10% of the riverfront area within a lot recorded after October 6, 1997, provided that:

a. At a minimum, a 100 foot wide area of undisturbed vegetation is provided. This area shall extend from mean annual high-water along the river unless another location would better protect the interests identified in M.G.L. c. 131 § 40. If there is not a 100 foot wide area of undisturbed vegetation within the riverfront area, existing vegetative cover shall be preserved or extended to the maximum extent feasible to approximate a 100 foot wide corridor of natural vegetation. Replication and compensatory storage required to meet other resource area performance standards are allowed within this area; structural stormwater management measures may be allowed only when there is no practicable alternative. Temporary impacts where necessary for installation of linear site-related utilities are allowed, provided the area is restored to its natural conditions. Proposed work which does not meet the requirement of 310 CMR 10.58(4)(d)1.a. may be allowed only if an applicant demonstrates by a preponderance of evidence from a competent source that an area of undisturbed vegetation with an overall average width of 100 feet will provide equivalent protection of the riverfront area, or that a partial rebuttal of the presumptions of significance is sufficient to justify a lesser area of undisturbed vegetation;

Proposed permanent alteration of on-site RFA will total less than 5,000sf ($\pm 4,538\text{sf}$), which is also less than 10% of the total RFA on-site. All permanent alteration of on-site RFA will maintain an area of undisturbed vegetation within RFA greater than 100ft. Additional, temporary impacts to RFA which will occur within 100ft of the MAHW line will occur in direct association with the “installation of linear site-related utilities,” which are expressly allowed under this regulation if “the area is restored to its natural conditions.” The applicant proposes the restoration of natural conditions in all areas which will be temporarily impacted by directional drilling associated with sub-surface utility installation.

b. Stormwater is managed according to standards established by the Department in its Stormwater Policy.

The proposed project is a single-family residence and is therefore exempt from adherence to the Stormwater Standards established by the Department.

c. Proposed work does not impair the capacity of the riverfront area to provide important wildlife habitat functions. Work shall not result in an impairment of the capacity to provide vernal pool habitat identified by evidence from a competent source, but not yet certified. For work within an undeveloped riverfront area which exceeds 5,000 square feet, the issuing authority may require a wildlife habitat evaluation study under 310 CMR 10.60.

The proposed project will not significantly impair the ability of on-site RFA to provide important wildlife habitat functions. All permanent alteration of on-site RFA will occur more than 100 ft

from the established MAHW line of Mill Brook thereby maintaining important wildlife habitat and movement corridors on-site. The project proposes <5,000 sf of permanent alteration and should therefore not be subject to a wildlife habitat evaluation.

d. Proposed work shall not impair groundwater or surface water quality by incorporating erosion and sedimentation controls and other measures to attenuate nonpoint source pollution.

The project has proposed the use of adequate erosion control measures between all proposed work and downgradient resource areas during the construction phase of the project.

10.58(4)(d)3.: Notwithstanding the provisions of 310CMR10.58(4)(d)1.or 2.,the issuing authority shall allow the construction of a single family house, a septic system if no sewer is available, and a driveway, on a lot recorded before August 7, 1996 where the size or shape of the lot within the riverfront area prevents the construction from meeting the requirements of 310 CMR 10.58(4)(d)1. or 2., provided that:

- a. The lot can be developed for such purposes under the applicable provisions of other municipal and state law; and*
- b. The performance standards of 310 CMR 10.58(4)(d) are met to the maximum extent feasible. In difficult siting situations, the maximum extent of yards around houses should be limited to the area necessary for construction. Except where the lot contains vernal pool habitat or specified habitat sites of rare species, a wildlife habitat evaluation study shall not be required.*

The subject lot has been in existence since at least 1969, predating the adoption of the Rivers Protection Act. These regulations make it clear that issuing authorities shall allow the construction of a single family house, driveway, and septic system if no sewer is available on lots that were recorded prior to August 7, 1996, as the locus site has been. All proposed work has been proposed in accordance with 310 CMR 10.58(4)(d)1 with all other applicable municipal and state law.

Regulatory Compliance Under the Westwood Wetlands Protection Bylaw

The project as proposed is in compliance with the Town of Westwood's Wetland Protection Bylaw with the exception of a small portion of work ($\pm 370\text{sf}$) will occurring within the 10' buffer of BVW.

C. Alteration of resource areas.

(1) The presumption that activity undertaken within 35 feet of certain resource areas shall alter those resource areas, as set out in Subsection (11) of the definition of "alter" in § 392-8 of this bylaw, shall not apply to:

- (a) Any lot shown on a subdivision plan filed and approved by the Planning Board pursuant to MGL c. 41, § 81P or 81S, for which*

application for Planning Board endorsement or approval has been made prior to March 1, 1998;

(b) Any lot otherwise in existence as of March 1, 1998;

(2) Such land and structures shall be subject to the presumption that any activity undertaken within 10 feet of the boundary of a wetland, bank, pond, vernal pool, stream or river shall alter that resource area. The subdivision of any lot otherwise grandfathered pursuant to Subsection C(1)(a) or (b) above shall be subject to the thirty-five-foot setback presumption.

Per the attached deed and Plan of Land, Lot 2B has definitively been in existence since at least 1969, predating the March 1, 1998 threshold established in these regulations. Accordingly, the parcel is subject to the 10ft boundary established or house lots created prior to March 1, 1998. Work within this 10ft buffer zone associated with this project is therefore presumed to have impacts on associated resource areas.

Proposed alteration within the 10-ft Buffer will total $\pm 2,379$ sf, of which only ± 370 sf will be permanent in nature. Permanent impacts are required to gain access to the house lot, but as previously outlined, will occur within an area which has previously been disturbed. The applicant requests the Commission to allow an exception to the Town's bylaw, allowing this alteration, as it facilitates access to the proposed house with the least amount of impacts to resource areas on-site.

Conclusion

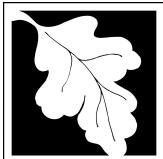

Goddard Consulting believes that the proposed project meets all regulatory compliance standards under the WPA and that the project will not have an adverse impact on the on- site resource areas. As such, GC respectfully requests that the Commission issues an Order of Conditions (OOC) approving the project. Please feel free to contact us if you have any questions.

Very truly yours,

Scott Goddard,
Principal & PWS

C. Other Applicable Standards and Requirements

- This is a proposal for an Ecological Restoration Limited Project. Skip Section C and complete Appendix A: Ecological Restoration Limited Project Checklists – Required Actions (310 CMR 10.11).

Streamlined Massachusetts Endangered Species Act/Wetlands Protection Act Review

1. Is any portion of the proposed project located in **Estimated Habitat of Rare Wildlife** as indicated on the most recent Estimated Habitat Map of State-Listed Rare Wetland Wildlife published by the Natural Heritage and Endangered Species Program (NHESP)? To view habitat maps, see the *Massachusetts Natural Heritage Atlas* or go to http://maps.massgis.state.ma.us/PRI_EST_HAB/viewer.htm.

a. Yes No

If yes, include proof of mailing or hand delivery of NOI to:

Aug 2017
b. Date of map

Natural Heritage and Endangered Species Program
Division of Fisheries and Wildlife
1 Rabbit Hill Road
Westborough, MA 01581

If yes, the project is also subject to Massachusetts Endangered Species Act (MESA) review (321 CMR 10.18). To qualify for a streamlined, 30-day, MESA/Wetlands Protection Act review, please complete Section C.1.c, and include requested materials with this Notice of Intent (NOI); OR complete Section C.2.f, if applicable. *If MESA supplemental information is not included with the NOI, by completing Section 1 of this form, the NHESP will require a separate MESA filing which may take up to 90 days to review (unless noted exceptions in Section 2 apply, see below).*

- c. Submit Supplemental Information for Endangered Species Review*

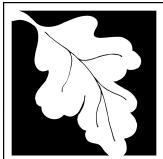

1. Percentage/acreage of property to be altered:
 - (a) within wetland Resource Area _____ percentage/acreage
 - (b) outside Resource Area _____ percentage/acreage

2. Assessor's Map or right-of-way plan of site

2. Project plans for entire project site, including wetland resource areas and areas outside of wetlands jurisdiction, showing existing and proposed conditions, existing and proposed tree/vegetation clearing line, and clearly demarcated limits of work **
 - (a) Project description (including description of impacts outside of wetland resource area & buffer zone)
 - (b) Photographs representative of the site

* Some projects **not** in Estimated Habitat may be located in Priority Habitat, and require NHESP review (see <http://www.mass.gov/eea/agencies/dgf/dfw/natural-heritage/regulatory-review/>). Priority Habitat includes habitat for state-listed plants and strictly upland species not protected by the Wetlands Protection Act.

** MESA projects may not be segmented (321 CMR 10.16). The applicant must disclose full development plans even if such plans are not required as part of the Notice of Intent process.

C. Other Applicable Standards and Requirements (cont'd)

- (c) MESA filing fee (fee information available at http://www.mass.gov/dfwele/dfw/nhesp/regulatory_review/mesa/mesa_fee_schedule.htm). Make check payable to "Commonwealth of Massachusetts - NHESP" and **mail to NHESP** at above address

Projects altering 10 or more acres of land, also submit:

- (d) Vegetation cover type map of site
(e) Project plans showing Priority & Estimated Habitat boundaries
(f) OR Check One of the Following

1. Project is exempt from MESA review.
Attach applicant letter indicating which MESA exemption applies. (See 321 CMR 10.14, http://www.mass.gov/dfwele/dfw/nhesp/regulatory_review/mesa/mesa_exemptions.htm; the NOI must still be sent to NHESP if the project is within estimated habitat pursuant to 310 CMR 10.37 and 10.59.)

2. Separate MESA review ongoing. a. NHESP Tracking # _____ b. Date submitted to NHESP _____
3. Separate MESA review completed.
Include copy of NHESP "no Take" determination or valid Conservation & Management Permit with approved plan.

3. For coastal projects only, is any portion of the proposed project located below the mean high water line or in a fish run?
a. Not applicable – project is in inland resource area only b. Yes No

If yes, include proof of mailing, hand delivery, or electronic delivery of NOI to either:

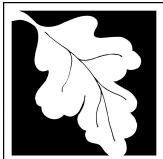

South Shore - Cohasset to Rhode Island border, and
the Cape & Islands:

Division of Marine Fisheries -
Southeast Marine Fisheries Station
Attn: Environmental Reviewer
1213 Purchase Street – 3rd Floor
New Bedford, MA 02740-6694
Email: DMF.EnvReview-South@state.ma.us

North Shore - Hull to New Hampshire border:

Division of Marine Fisheries -
North Shore Office
Attn: Environmental Reviewer
30 Emerson Avenue
Gloucester, MA 01930
Email: DMF.EnvReview-North@state.ma.us

Also if yes, the project may require a Chapter 91 license. For coastal towns in the Northeast Region, please contact MassDEP's Boston Office. For coastal towns in the Southeast Region, please contact MassDEP's Southeast Regional Office.

C. Other Applicable Standards and Requirements (cont'd)

4. Is any portion of the proposed project within an Area of Critical Environmental Concern (ACEC)?

Online Users:

Include your document transaction number (provided on your receipt page) with all supplementary information you submit to the Department.

- a. Yes No If yes, provide name of ACEC (see instructions to WPA Form 3 or MassDEP Website for ACEC locations). **Note:** electronic filers click on Website.

b. ACEC

5. Is any portion of the proposed project within an area designated as an Outstanding Resource Water (ORW) as designated in the Massachusetts Surface Water Quality Standards, 314 CMR 4.00?

- a. Yes No

6. Is any portion of the site subject to a Wetlands Restriction Order under the Inland Wetlands Restriction Act (M.G.L. c. 131, § 40A) or the Coastal Wetlands Restriction Act (M.G.L. c. 130, § 105)?

- a. Yes No

7. Is this project subject to provisions of the MassDEP Stormwater Management Standards?

- a. Yes. Attach a copy of the Stormwater Report as required by the Stormwater Management Standards per 310 CMR 10.05(6)(k)-(q) and check if:

1. Applying for Low Impact Development (LID) site design credits (as described in Stormwater Management Handbook Vol. 2, Chapter 3)

2. A portion of the site constitutes redevelopment

3. Proprietary BMPs are included in the Stormwater Management System.

- b. No. Check why the project is exempt:

1. Single-family house

2. Emergency road repair

3. Small Residential Subdivision (less than or equal to 4 single-family houses or less than or equal to 4 units in multi-family housing project) with no discharge to Critical Areas.

D. Additional Information

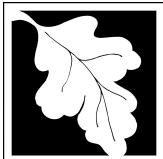

- This is a proposal for an Ecological Restoration Limited Project. Skip Section D and complete Appendix A: Ecological Restoration Notice of Intent – Minimum Required Documents (310 CMR 10.12).

Applicants must include the following with this Notice of Intent (NOI). See instructions for details.

Online Users: Attach the document transaction number (provided on your receipt page) for any of the following information you submit to the Department.

1. USGS or other map of the area (along with a narrative description, if necessary) containing sufficient information for the Conservation Commission and the Department to locate the site. (Electronic filers may omit this item.)

2. Plans identifying the location of proposed activities (including activities proposed to serve as a Bordering Vegetated Wetland [BVW] replication area or other mitigating measure) relative to the boundaries of each affected resource area.

F. Signatures and Submittal Requirements

I hereby certify under the penalties of perjury that the foregoing Notice of Intent and accompanying plans, documents, and supporting data are true and complete to the best of my knowledge. I understand that the Conservation Commission will place notification of this Notice in a local newspaper at the expense of the applicant in accordance with the wetlands regulations, 310 CMR 10.05(5)(a).

I further certify under penalties of perjury that all abutters were notified of this application, pursuant to the requirements of M.G.L. c. 131, § 40. Notice must be made by Certificate of Mailing or in writing by hand delivery or certified mail (return receipt requested) to all abutters within 100 feet of the property line of the project location.

1. Signature of Applicant

3/19/20

2. Date

3. Signature of Property Owner (if different)

4. Date

3/19/2020

5. Signature of Representative (if any)

6. Date

For Conservation Commission:

Two copies of the completed Notice of Intent (Form 3), including supporting plans and documents, two copies of the NOI Wetland Fee Transmittal Form, and the city/town fee payment, to the Conservation Commission by certified mail or hand delivery.

For MassDEP:

One copy of the completed Notice of Intent (Form 3), including supporting plans and documents, one copy of the NOI Wetland Fee Transmittal Form, and a copy of the state fee payment to the MassDEP Regional Office (see Instructions) by certified mail or hand delivery.

Other:

If the applicant has checked the "yes" box in any part of Section C, Item 3, above, refer to that section and the Instructions for additional submittal requirements.

The original and copies must be sent simultaneously. Failure by the applicant to send copies in a timely manner may result in dismissal of the Notice of Intent.

B. Fees

Fee should be calculated using the following process & worksheet. **Please see Instructions before filling out worksheet.**

Step 1/Type of Activity: Describe each type of activity that will occur in wetland resource area and buffer zone.

Step 2/Number of Activities: Identify the number of each type of activity.

Step 3/Individual Activity Fee: Identify each activity fee from the six project categories listed in the instructions.

Step 4/Subtotal Activity Fee: Multiply the number of activities (identified in Step 2) times the fee per category (identified in Step 3) to reach a subtotal fee amount. Note: If any of these activities are in a Riverfront Area in addition to another Resource Area or the Buffer Zone, the fee per activity should be multiplied by 1.5 and then added to the subtotal amount.

Step 5/Total Project Fee: Determine the total project fee by adding the subtotal amounts from Step 4.

Step 6/Fee Payments: To calculate the state share of the fee, divide the total fee in half and subtract \$12.50. To calculate the city/town share of the fee, divide the total fee in half and add \$12.50.

To calculate filing fees, refer to the category fee list and examples in the instructions for filling out WPA Form 3 (Notice of Intent).

Property Owner Application Authorization

This form certifies that the party listed below has been granted authorization to submit an application to the Town of Westwood Conservation Commission on behalf of a property owner. The Owner's signature shall also grant permission to members of the Conservation Commission and the Conservation agent permission to visit the property for related site inspections during the application and construction process. This form must be filled out and completed by the property owner if another party is submitting an application(s) on the owner's behalf. This form must be signed by the property owner and submitted for all individual land owners for all land involved with the application project and submitted at the time of application. No Application to the Conservation Commission will be considered complete without the authorization from the property owner.

I, Salvatore Vinci am the owner of the property
at 42 Mill St., Westwood and I certify that I have granted,
Goddard Consulting, LLC to submit an application with
the Town of Westwood Conservation Commission to (brief description of proposed project):
Construction of a detached single-family residence and appurtenant structures to be built within buffer zone to on-site
Bordering Vegetated Wetland and River Front Area.

AFFIDAVIT OF SERVICE

UNDER THE MASSACHUSETTS WETLANDS PROTECTION ACT AND WESTWOOD WETLAND PROTECTION BYLAW

I, Tim McGuire, hereby certify under the pains and penalties of perjury that on June 18, 2020, I gave notification to abutters within 300 feet of the proposed project in compliance with the Westwood Wetland Protection Bylaw and with the second paragraph of the Massachusetts General Laws, Chapter 131, Section 40 and the DEP Guide to Abutter Notification dated April 8, 1994, in connection with the following matter:

A Notice of Intent filed under the Massachusetts Wetlands Protection Act and the Westwood Wetland Protection Bylaw, by Goddard Consulting, LLC with the Westwood Conservation Commission on June 18, 2020 for a property located at 42 Mill St. in Westwood, Massachusetts.

The notification form and the list of the abutters to whom it was given, and their addresses are attached to this Affidavit of Service.

B. Order of Delineation

The Department has determined the following (check whichever is applicable):

- Accurate:** The boundaries described on the referenced plan(s) above and in the Abbreviated Notice of Resource Area Delineation are accurately drawn for the following resource area(s):

- Bordering Vegetated Wetlands
 Other Resource Area(s), specifically:
-
-

- Modified:** The boundaries described on the plan(s) referenced above, as modified by the Department from the plans contained in the Abbreviated Notice of Resource Area Delineation, are accurately drawn for the following resource area(s):

- Bordering Vegetated Wetlands
 Other Resource Area(s), specifically:

Mill Brook perennial stream/Riverfront Area. Note that Riverfront associated with portions of Mill Brook off site extending north of wetlands flag GC37 has not been delineated. Prior to submission of an NOI, the culverted portion of Mill Brook will be survey located and the extent of riverfront, and whether it impacts the site, will be determined.

- Inaccurate:** The boundaries described on the referenced plan(s) and in the Abbreviated Notice of Resource Area Delineation were found to be inaccurate and cannot be confirmed for the following resource area(s):

- Bordering Vegetated Wetlands
 Other Resource Area(s), specifically:
-
-

The boundaries were determined to be inaccurate because:

B. Order of Delineation (cont.)

This Final Order of Resource Area Delineation determines the boundaries of those resource areas noted above and is binding as to all decisions rendered pursuant to the Massachusetts Wetlands Protection Act (M.G.L. c.131, § 40) and its regulations (310 CMR 10.00) regarding such boundaries. This Order does not, however, determine the boundaries of any resource area or Buffer Zone to any resource area not specifically noted above, regardless of whether such boundaries are contained on the plans attached to this Order or to the Abbreviated Notice of Resource Area Delineation.

Signature:

Martin Suuberg
Commissioner, MassDEP

This Order is valid for three years from the date of issuance.

This Order is issued to the applicant and the property owner (if different) as follows:

N O T QUITCLAIM DEED N O T
 A N A N
 Anthony F. Delapa and Joanne C. Delapa as they are Trustees of the Delapa Realty Trust,
 Grantor, u/d/t dated March 9, 1967, recorded in the Norfolk Deeds in Book 4416, Page 326 for
 consideration paid of Ten Thousand (\$10,000.00) grant to

Salvatore Vinci and Margaret Vinci, Grantee, husband and wife as tenants by the entirety,
 of 65 Bay Colony Drive, Westwood, Massachusetts 02090

with quitclaim covenants the land situated on Mill Street, Westwood, Norfolk County,
 Massachusetts being designated and shown as Lot 2 on a plan entitled "Plan of Land in Westwood,
 Mass." by Pilling Engineering Company Inc. dated February 4, 1969, which plan is recorded with
 Norfolk Registry of Deeds as Plan No. 394 of 1969, Book 4594, Page 671, bounded and described
 according to said plan as follows:

NORtheasterLY	by Mill Street, as shown on said plan, 95 feet;
SOUTheasterLY	by land marked "Lot 3 Donald Hecht, Margaret M. Hecht" on said plan 565 feet more or less;
SOUTherLY	by land marked "Lot 4 James F. Kearns, Francis J. Kearns" on said plan 235 feet more or less;
WESTerLY	in part by the end of Millbrook Road and in part by land marked "Richard P. Tschirch, Marylou Tschirch" on said plan, by three lines measuring 50 feet; 9.20 feet and 75.61 feet;
SOUThwesterLY	in part by said land marked "Richard P. Tschirch, Marylou Tschirch" on said plan in part by land marked Paul R. Kugel, Esther M. Kugel" on said plan and in part by land marked "Samuel DeBoer, Elizabeth P. DeBoer" on said plan, by two lines measuring 110.40 feet and 105 feet;
NORTHwesterLY	by Lot 2A, as shown on said plan, 160.06 feet
NORTherLY	by said Lot 2A, 231.44 feet;
NORtheasterLY	by said Lot 2A, 27.05 feet;
NORTherLY	by said Lot 2A by two lines measuring 182.45 feet and 154.17 feet; and
NORTHwesterLY	by said Lot 2A, 204.45 feet,

Containing according to said plan 174,240 square feet or 4.000 Acres.

Said premises are conveyed with the following right as appurtenant thereto:

- (a) To use in common with the Grantor and others lawfully entitled thereto for purposes of ingress and egress to and from said Lot 2B those portions crossing the Grantors remaining land consisting of a strip noted "Right of Way" on the plan hereinafter mentioned which lies within the limits of a parcel of land situated on Mill Street in Westwood, Norfolk County, Massachusetts, being designated and shown as Lot 2A on a plan entitled "Plan of Land in Westwood, Mass." by Pilling Engineering Company dated February 4, 1969 amended February 5, 1969, which

plan is filed in Norfolk Registry of Deeds as Plan No. 394 of 1969, Book 4594, Page 671 and said right of way being bounded and described as follows:

NOTES

Beginning at a point in the common boundary line of Lot 2A and Lot 2B, as shown on said plan, said point being a distance, measuring in three lines 204.45 feet, 154.17 feet and 182.45 feet, Southwesterly and Northwesterly from Mill Street, as shown on said plan, and bounded,

SOUTHWESTERLY	by Lot 2B, as shown on said plan, 27.05 feet;
NORTHWESTERLY	by Lot 2A, as shown on said plan, being a curved line, 80.49 feet;
NORTHERLY	again by said Lot 2A, by two lines measuring 150.75 feet and 128.47 feet;
NORTHWESTERLY	again by said Lot 2A, 222 feet more or less;
NORtheASTERLY	by Mill Street, as shown on said plan, 25 feet more or less;
SOUTHEASTERLY	again by said Lot 2A, 145 feet more or less;
SOUTHERLY	again by said Lot 2A, by two lines measuring 141.32 feet and 50.88 feet;
SOUTHEASTERLY	again by said Lot 2A, being a curved line with a radius of 40.00 to the point where said curved line intersects with the common boundary line of said Lot 2A and said Lot 2B; thence turning and running N 84° 00' 00" W along said common boundary line to the point of beginning.

- (b) The appurtenant right to pass and repass is limited to private passenger automobiles, bicycles and foot passage only; trucks, vans, machinery and such non-private passenger vehicles are restricted to passage for fuel delivery, maintenance and repairs to and construction of a proposed single family residence.
 - (c) The appurtenant right to pass over said "right of way" on Lot 2A requires the grantees to conduct prompt removal of all snow and ice from all pavement and the repair and maintenance of the now existing bituminous concrete pavement, on Lot 2A, in a reasonable condition for passage as aforesaid of a standard similar to accepted streets and ways in the Town of Westwood.
 - (d) No vehicles or bicycles may be left standing or parked at any time on the aforesaid "right of way."
 - (e) The appurtenant right conveyed about does not include any rights to lay pipes, change grades, erect structures in, on, over or under the said "right of way."

The premises hereby conveyed shall be subject to the following restrictions which shall be construed as covenants running with the land and shall be binding and in full force and effect until the first day of January in the year 2025.

- (1) Said Lot 2B shall be used only for the purpose of a dwelling house designed for the occupancy of and used by one family only.

(2) No business of any nature, whether mercantile, manufacturing, professional or other shall be allowed or conducted upon said premises.

N O T

(3) No commercial vehicle shall be regularly parked on the premises nor shall any house trailer, camper or boat and/or trailer, or other recreational vehicle be allowed to remain on the premises. A N OFFICIAL

(4) No livestock, poultry or pigeons shall be kept on the premises, household pets to be excepted from the restrictions.

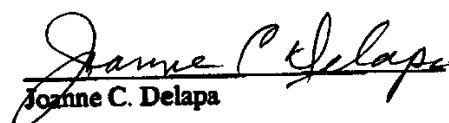

The Grantors expressly reserve the following rights, privileges and easements, forever, in, over, under, upon or through said Lot 2B:

- A. To use the areas designated and shown as a pond on Lot 2B on said plan for skating, sledding, bathing, swimming, boating, fishing, or other recreational purposes and for the purpose of access to the same the right, privilege and easement, forever, to pass and repass by foot, bicycle, horse or horse-drawn sleigh or carriage, over that portion of Lot 2B.

For title of Grantor see Deed recorded at Book 7211, Page 711.

Witness my hand and seal this 17th day of July, 2000.

Anthony F. Delapa, Trustee
