Hi Karon, someone should be stopping by to deliver the check very soon.

Also I believe that as the work would be occurring entirely within the footprint of a historical mill structure, section 10.58 (6)(k) of the regs would apply, if I am not mistaken -

(6) Notwithstanding the Provisions of 310 CMR 10.58(1) through (5), Certain Activities or Areas Are Grandfathered or Exempted from Requirements for the Riverfront Area:

(k) Activities within an Historic Mill Complex.

This proposal is for just the concrete spillway removal work.

I had to use the prior sheet from the existing open DEP # because at the state level it is still the same filing.

I will look into that further in the meantime.

Thank you.

WPA form and new info for work.

All info, lot, applicant, etc remains the same.

Karon,

I had to get a colleague's email, as he originally uploaded the docs. New docs have been added, as well as myself as a collaborator on the project in the system.

Let me know if anything else is needed, I think we should be all set to have the ad re-ran.

Thanks!

Hi Karon,

Doug from Goddard again. As discussed we are hoping to re-appear to address the 42 Mill St application (DEP # 338-0756).

I am hoping we can get on the July 23rd meeting. I am currently working on an updated submittal package. I see the deadline for that meeting is July 2nd, I intend to have everything in to you prior to that.

The list has been requested , received and we are currently assembling letters to re-notify abutters.

I know the advert will need to be re-ran as well.
